

# 2020 HALLOWEEN GUIDANCE

## Trick or Treating

Trick-or-treat outside is relatively low risk. Adults and children should be masked (spooky or otherwise) when interacting with individuals outside their family group.

Candy should be handed out by one individual. Children should not be allowed to grab candy out of a bowl. Individuals handing out candy should be masked (non-spooky, cloth - could be decorated) and gloved if possible.

## Alternative Celebrations

- Virtual costume contests and parties
- Increasing celebrations at home with decorations and family activities
- Drive-thru haunted houses

## Things to Avoid

- Haunted Houses
- Large gatherings, such as parties and festivals
- In person indoor celebrations
- Happy hours or socializing at bars

## Things to Remember

- Stay local
- If you have symptoms of COVID-19, stay home
- Practice social distancing, even outside
- Wear a mask or cloth face covering
- Dress appropriately for the weather
